Parkway Oaks Park grass areas without goals	U6	Desertwind Drive & South Land Park Drive	84	79, 93	84	79, 93	

## COACHES GUIDELINES:

1. Refer to the Home Field Assignments for your team number.
2. U6 Teams are assigned two days a week to practice at locations with open grassy areas with no goals. \*U6 DO NOT use the soccer fields with goals. Soccer fields with goals are for U8 – U19 GSC teams.
3. Each area can support multiple U6 teams. No team has any more right than another team to a specific location. Coaches need to work together to ensure that every team has enough space.
4. Practices may be held anytime from 5p.m. to Dusk each day; but School activities have priority of use at all times at Schools fields. Other Park activities may occur at your field; they have priority of use if they have a permit.
5. Coaches wanting changes should contact the Fields Coordinator (Steve Wong) for approval. The web-site Practice Schedule will then be updated to reflect changes. Coaches may also practice at any unspecified locations as long as it is not being used or already assigned by this schedule.
6. Players and parents must pick up any litter after each game and practice. Coaches, players, & parents must be courteous of immediate neighborhoods & neighbors as loss of field use by your team will result (if caught speeding, blocking driveways, running over grass piles, using the fences or bushes as a restroom, etc.).
7. Coaches must call, before practice & games during the rain. City Parks Dept. “status of use” number is 277-2336 to find out if the fields have been closed. Parks Dept. will dictate whether games or practice can continue or not to prevent field damage & player safety. Use of City School fields will follow the same “status of use” determination as the Parks Dept. Teams face loss of field use & financial assessments for field damages for playing on fields that have been closed by City Parks Dept.
8. If there is an issue (like sprinklers on or an altercation) at any of the City Parks during your practices or games, call the City Operator at 264-5011 to have a City Parks Maintenance or Enforcement Officer come out to the field to assist you.
9. If there is an emergency at any of the Fields you can contact the Sacramento City Police Department at 732-0100 using a Cellular Phone. If you call 911 on your Cellular Phone it will only put you through to the Sacramento Highway patrol, which has no jurisdiction at the Parks or Schools. Non-emergency Police number is 264-5471.
10. GSC does not provide restrooms. Some Parks may have on-site restrooms. School restrooms are not available or open for use. Advise parents & players to plan accordingly for practices & games. Do not allow anyone to use fences/bushes as a restroom.
11. Contact Fields Coordinator for field issues: large holes, broken sprinklers, flooded areas, long grass, dry grass, field line markings are not visible, goals in need of repair, dangerous conditions, etc.
